

# Planning Riga Bar Crawl

## Let the group to be in charge of their bar crawl!

Every year we take hundreds stag parties on the bar crawl. The groups come from different walks of life and often have different preferences, so one group thought this place is fantastic, but to another group different venue will hit the spot. Some like it posh and refined, some like to see places off the beaten track to feel the vibe of the city. To ensure everyone's satisfaction

we have this opportunity for the group to create their own bar crawl. On our standard bar crawl our guide takes the group to three venues and then finishes at reputable topless bar. In order to plan a good night out we ask the group what types of venues they would like and roughly how long they would like to spend in each one before moving on.

---

### Our standard route is:

#### English, Irish or Latvian Pub

— one hour spent there

**Dance Bar** — one hour spent there

**Posh Bar** — one hour spent there

**Topless Bar** — final destination

where the guide leaves the group

**Upgrade:** If the group also wants drinks to be included, we offer one pint of local lager in each venue – subject to small extra.

If your group wishes anything different combination for the first three venues, please specify — some prefer to stick to posh bars, some want to do two pubs and dance bar.

### English and Irish Pubs

Home away from home — familiar lagers, familiar crowd, sport channels and bar food with no surprises. These places have a mixed crowd of stags ex-pats and local youth. Similar to any good standard UK pub from a reputable pub chain.

### Old Latvian Pubs

Mostly country-themed with good selection of local brews, heavy farmers food and old "tavern" look – frequented by tourists and locals. Similar type of place in UK — Belgo's at Covent Garden.

### Dance Bars

A cross between bar and nightclub — small and medium-sized venues with good bar, dance floor filled up by local and tourist party-goers and often music is taken care of by resident DJ. Good place to chat to local beauties as the places are not as loud as large nightclubs. Similar type of place in UK — Tiger Tiger at Picadilly.

### Posh Bars

Famous places manly found on top floors of luxury hotels or well hidden in Old Town. Pricey but chic, a hangout of rich and glamorous. Similar place in UK — Top floor bar at Hyde Park Hilton.

### **Strip Clubs**

The best place to finish off the bar crawl to be rewarded with ultimate final destination of lad's night out. We will have this as the fourth and final point where the group can stay as long as they like. There is rigorous selection procedure only few establishments passed. The gentleman's clubs we use are genuine, not the tourist traps, the drink prices are same or less than in most pubs, the entrance is free and we guarantee honest and safe environment. We always remember that the lads are in Riga to pay less than in UK not more. Similar place in UK — Metropolis, Secrets.

### **Nightclubs**

We take nightclub organising very seriously and provide it as a separate activity under "Top nightclub entrance". The clubs are the best in town with listed entrance. We recommend planning top nightclub as a separate event on the different night to Bar Crawl, so the group arrives into club nice, tidy and more or less sober — having few too many lagers at the bar crawl is not a problem getting into mediocre nightclubs, but even with VIP listed entrance to cream of the crop clubs we arrange it is better avoided. Please book nightclubs under separate entry in Night Activities section
